**Program Theme:
Ways of Knowing**

**Thème de la conférence:
Façons de savoir**

The theme for the conference is *ways of knowing*. By this we mean several things: implicitly, that there are many ways of knowing any particular object, process, or event; that some of these ways of knowing have historically been more valued than others; and that processes of adjudicating ways of knowing have usually been neither nice nor neutral. So we are interested in processes of valuation (from the language of debates to acts of censorship) that result in one way of knowing as “the right one” or “the natural one.” We are interested in how people, groups, or cultures hold more than one way of knowing, and whether this is stable, durable, or problematic. When different ways of knowing are triangulated, how is this actually done in practice? What is lost and what is gained in the triangulation process?

We are interested in how certain ways of knowing are deemed to be “non-scientific,” (for example, magic, divination, astrology, etc). Several other interesting areas spring from this mixture of questions: historically, what is kept, or what is ignored, in studies of knowledges and paradigm shifts? (Including here questions of collective memory and collective forgetting.) How do new regimes of record keeping, such as the electronic patient record or the full text data base, affect what is remembered and what is forgotten?

(This may be true across a large numbers of fields.) All sorts of questions about translation arise in discussing these issues – Who chooses what is to be translated? Who does the translation? Does the quality of the translation impact the nature of knowledge, and if so, how? In Howard Becker's famous concept, "hierarchy of credibility," he claims that, for a well-socialized member of a hierarchical organization or institution, information coming from "the top" is de facto more credible than that coming from "the bottom." So, a bank president, regardless of what she says, is more credible than a temporary janitor. However, within science studies, and following many sorts of principles of symmetry, we do not take members' hierarchies for granted, especially as questions of voice and position are precisely the matters under analysis.

Given that our conference will be in Quebec, one of the sites where language (as a marker) of difference was bitterly disputed, we must examine the idea that language carries powerful politics. In some cases, as with Aboriginal children, the attempt to suppress a language is linked with the destruction of culture and even with genocide. Finally, there are different ways of knowing that are formed by gestures, by ways of pronouncing words, or by how names are heard and understood. Sometimes ways of knowing are different with respect to quantitative vs. qualitative; visual vs. textual, or statistical vs. enumerative. These only suggest the ways knowledges may frame findings, thus mirroring a final finding.

**Background
Information****Informations
générales****Acknowledgements**

Many people helped bring the program together. I want to thank especially Wes Shrum, for handling the many details and questions regarding the meeting and program policies in general; Anne Borrero, for helping get the program into a readable shape and handling many inquiries; Leigh Star, for developing the program's call for papers and helping with the Weds. plenary; Tracey McKee, for organizing the hotel relations, rooms, exhibits, and registration; Rick Duque, for helping with catering and other arrangements; Steve Coffee, for organizing the web site and helping with electronic issues; Jean-François Blanchette, for assisting in translation of the French; Wenda Bauchspies, for answering questions based on her experience as the previous program chair; the access committee members (Steven Emery, Florence Millerand, Ursula Naue, Kristin Snodden, Leigh Star, Ernst Thoutenhoofd); and the program committee members (Dean Nieuwma, Jill Fisher, Torin Monahan, Sergio Sismondo, and Roli Varma), for reading abstracts and making preliminary panel sorts.

We also wish to thank the staff of the Doubletree Plaza Hotel in Montreal.

A Note on Paper Presentation Lengths

The Society for Social Studies of Science has grown rapidly in recent years, and the number of abstracts submitted has been very high compared to previous years. As a result paper presentation length has been compressed to about 15 minutes on the average. The council plans to deliberate on the issue and to solve it in future years by finding a larger space, making the selection criteria more rigorous, or finding some other solution.

Abstracts

Per recommendation from the 4S leadership, abstracts are posted on the 4S web site.

Governance**Gouvernance**

The 4S is governed by a President and a council of nine persons. Council members serve three year terms, and the President serves a two year term after a one year term as President Elect. All Past Presidents are non-voting members of Council.

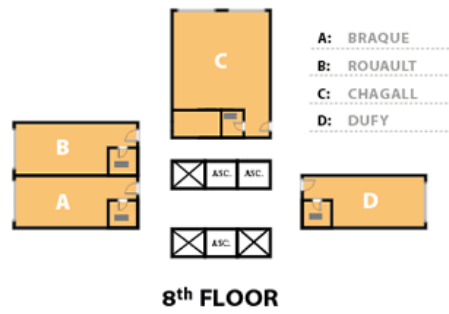

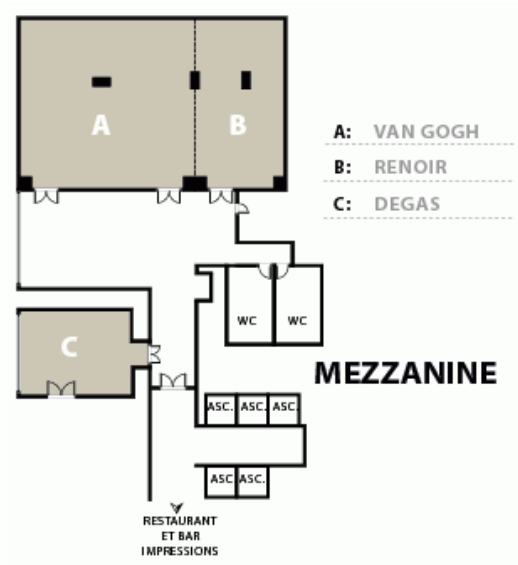

President: Susan Leigh Star (Santa Clara University)
 President Elect: Michael Lynch (Cornell University)
 Past President: Bruno Latour (Ecoles des Hautes Etudes en Science-Politiques)
 Secretary: Wesley Shrum (Louisiana State University)

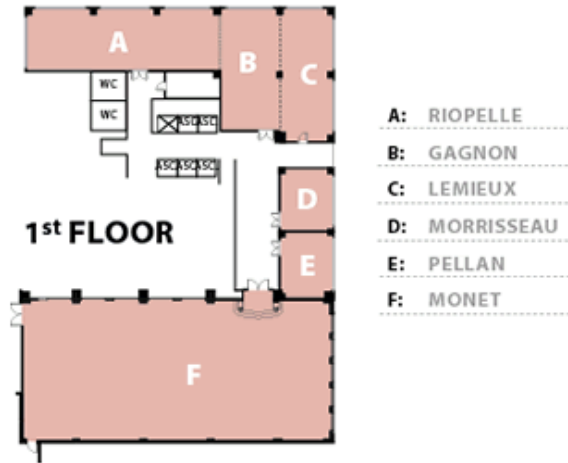

Council Members:

Sergio Sismondo (Queen's University)
 Roli Varma (University of New Mexico)
 Joe Dumit (University of California, Davis)
 Maureen McNeil (Lancaster University)
 Martina Merz (University of Lucern)
 Paul Wouters (KNAW)
 Stefan Timmermans (UCLA)
 Gabrielle Hecht (University of Michigan)
 Michelle Murphy (University of Toronto)
 Ex-Officio: Chrstine Hine, Pres. of EASST (U. of Surrey)

Student Representatives:

Michelle Steward (University of California, Davis)
 Matthew Harsh (University of Edinburgh)

**PROGRAM
AT A GLANCE**

**RESUME
DU PROGRAMME**

Wednesday (Oct. 10)

3:00-8:00pm Registration

1:00-3:00pm Publications Committee Meeting (Fortin)

3:00-6:00pm Council Meeting (Fortin)

6:00-7:00pm Prize Committee Meetings (Fortin)

6:15-7:15pm (Monet Ballroom). “STS in 1977: Feminist and Multicultural Perspectives” This plenary session will continue the tradition of historical retrospective sessions, featuring talks by Sandra Harding, Willie Pearson, Cheryl Leggon, Leigh Star, and Judy Wajcman.

7:15-9:00pm (Monet Ballroom). Informal senior/junior mentoring and mingling session.

Thursday (Oct. 11)

1 Thursday 8:15-10:00am

1.1 The Local/Global Politics of Regenerative Medicine

1.2 STS and Information Studies I: Cyberinfrastructure/e-Science

1.3 Ways of Knowing the Biomedical Body

1.4 Knowledge for Governing Science

1.5 Climate Change

1.6 Translating Knowledge, Transgressing Boundaries: An Exploration of Cultures and Practices Underlying the Conversion of Biomedical Knowledge

1.7 Innovation, Universities, and Industry

1.8 Crossing Boundaries in E-research

1.9 Ethics in Practice

- 1.10 Communicating Value through Language: How Language Is Used to Assign
- 1.11 Institutional Ideologies of Knowing: Perspectives from Eastern Europe

2 Thursday 10:15-12:15

- 2.1 Regimes of Production of Knowledge in Life Sciences
- 2.2 STS & Information Studies II: Archives & Databases
- 2.3 New Perspectives on Science and Social Movements
- 2.4 Private Sector Science: Commercial Ways of Knowing
- 2.5 Ways Knowing Everything About Each Other: Critical Perspectives on Web 2.0 and Social Networking
- 2.6 Technologies of Repair
- 2.7 Postphenomenological Research I
- 2.8 Global Knowledges and Democratic Agency
- 2.9 Mobilized Subjects: Militarization in National and Transnational Contexts
- 2.10 Ways of Knowing the Field
- 2.11 Ways of Knowing Within and Through Games and Play

3 Thursday 12:30-1:30

- 3.1 A Hands-On Mapping Workshop for Exploring Different Representational Strategies for Describing Complex Technoscientific Domains (Roundtable)
- 3.2 STS & Information Studies III: Doing STS in Information Schools (Roundtable)
- 3.3 Assemblages, Eduscapes, and Knowledge: A Critical Anthropology of Knowledge Society
- 3.4 Embodied Translations, Translating Embodiment
- 3.5 Field Science and Embodied Knowing in an Era of Virtuality

- 3.6 Faculty Panel: Getting Your First Academic Job (sponsored by the student section of the 4S)
- 3.7 Learning Together, Learning Apart: The Contradictory Dynamics of Mixing Disciplinary Knowledges
- 3.8 Postphenomenological Research II
- 3.9 Ask your Doctor About... Science and Commerce in Canadian Health
- 3.10 Intimate Interfaces: Constituting Technologies, Bodies, and Users through Seamless Relations
- 3.11 STS in Canada: Building Towards the Future (roundtable)

4 Thursday 1:45-3:15

- 4.1 Student Business Meeting (may be moved to Saturday lunch)
- 4.2 STS & Information Studies IV: Mapping Science
- 4.3 Law and the Question of Non-science: Legal Encounters With 'Other' Ways of Knowing
- 4.4 Knowledge Gaps and STS
- 4.5 Exploring the Nano-Enterprise
- 4.6 Twice Alive? The Re-birth of the Gene in Science Studies
- 4.7 Social and Technical Aspects of Scientific Collaborations
- 4.8 Knowing with Computers: How Software and Systems Encapsulate Expertise
- 4.9 Ethnographies of Science and Technology Across Disciplines: The Theory and Practice of "Ways of Knowing"
- 4.10 Ways of Knowing the Mind and Brain: Anthropologies of the Psy Disciplines
- 4.11 Ontology and Kin(d)ship in the Classificatory Practices of Human-Animal Relations

5 Thursday 3:30-5:45

- 5.1 Knowing in Action: Where's STS?

- 5.2 STS & Information Studies Stream V: The Information Perspective on Scientific Information
- 5.3 How do We Know our Hearts are Diseased?
- 5.4 Bourdieu and Beyond: Theories for a New Political Sociology of Science
- 5.5 Knowing Pain: The Cultural Logics of Pain and Drug Addiction Research
- 5.6 Institutional Decision-Making in Disaster Response
- 5.7 Energy, Climate Science, and Sustainable Consumption
- 5.8 Stabilizing Multiplicity
- 5.9 Latin American Science and Ways of Knowing
- 5.10 Science and the Politics of Food: Negotiating Risk, Credibility, and Civil Society
- 5.11 Growing Up Connected: Ways of Knowing through Participatory Culture
- 5.12 Topological Media Lab (special session at 5:25pm).

Friday (Oct. 12)

7:30-8:30am Social Studies of Science Editorial Board Meeting (Degas)

6 Friday 8:15-10:00

- 6.1 Translating Latour
- 6.2 Going Local, Knowing Global? Dilemmas and Challenges of Genomic Governance (Working Session)
- 6.3 Sciences and Publics
- 6.4 Technologies of Hope: Exploring Emerging Therapeutic Cultures
- 6.5 Towards a Socio-Technical Understanding of Architecture and Urbanism I: Design Thinking: an STS perspective on architectural practices

- 6.6 Pharmaceutical Ways of Knowing
- 6.7 Nanotechnology
- 6.8 Knowing Food: Taste, Technology and Skill (Working Session)
- 6.9 Learning in Online Communities of Practice
- 6.10 Transvaluing Communicative Discourse: Using New Media for New Knowledge Construction
- 6.11 “Alternative” Ways of Knowing: the Changing Landscape of Legitimate Knowledge in CAM/IM

7 Friday 10:15-12:15

- 7.1 Subject/Object Configurations in Transnational Circuits of ICT
- 7.2 Civic Epistemologies and Mediated Science
- 7.3 Visions of Nanotech: Fault Lines in Knowledge and Meaning
- 7.4 Engaging Whom? Intervention-Oriented Investigations into R&D and Policy
- 7.5 Towards a Socio-Technical Understanding of Architecture & Urbanism II: Reclaiming the city: An STS perspective on urban knowledge and activism
- 7.6 In the Eye of the Beholder: Surveillance and the Performance of Identity
- 7.7 Problematizing Technological “Appropriation”
- 7.8 Making, Knowing and Governing by Numbers
- 7.9 Managing Ecosystems: Science, Culture, Values
- 7.10 ICT and Hospitals
- 7.11 What Does it Mean to You? Making, Merging, and Judging Meaning across Socio-cultural Contexts

8 Friday 12:30-1:30

- 8.1 The Challenge of Diverse Ways of Knowing: Assessing Biotechnologies in New Zealand

- 8.2 From Endogenous Controversies to External Protest: Does Critique Produce new Scientific Regulations?
- 8.3 Ethics in Experimentation
- 8.4 Agricultural (bio)technologies and international development: Engaging STS to make a difference (Roundtable)
- 8.5 Anatomies of E-government
- 8.6 Time, Space, Sociality and the Uses of Mobile Wireless Technologies: In Between Science and Technology Studies and New Media Studies
- 8.7 Space, Material Culture, and Knowledge Production in the Human Sciences
- 8.8 Feminist caucus lunchtime roundtable
- 8.9 Ethnographies of Knowledge
- 8.10 Brains and Neuroscience
- 8.11 Managing Nature

9 Friday 1:45-3:15

- 9.1 Author Meets Critics: Geof Bowker
- 9.2 Locating Genetic Knowledge and Responsibility
- 9.3 Powers of Science; Powers of State
- 9.4 Flows of Information and Technologies of Surveillance: Adaptations and Transformations of Personal Information in the Information Age
- 9.5 The Traffic of Reproductive Technoscience and East Asian Modernities
- 9.6 Experimenting With "The Asthma Files"
- 9.7 Technoscience in the Production of Contemporary Security Dilemmas
- 9.8 Mice and Men. Bodies in Experimental Sciences
- 9.9 Visual Ways of Knowing
- 9.10 Hacking Knowledge

9.11 Locating Grids of Intelligibilities and Situatedness of Knowledge and Knowing

10 3:30-5:30pm Presidential Plenary (Monet)

6:00-7:00pm Business Meeting (Braque)

7:00pm Cash Bar (Gagnon)

8:00pm Annual Banquet (Monet)

Saturday (Oct. 13)

7:30-8:30am STHV editorial board meeting (Degas)

11 Saturday 8:15-10:00am

11.1 Hospitals and Technologies

11.2 Ways of Knowing Diseases

11.3. Ways of Sensing Biology

11.4 Author Meets Critics: Steve Fuller

11.5 Gender and Technology

11.6 Designing “Big Stuff”: STS and the Design of Large Technological Systems

11.7 Risk, Environment, and Technology

11.8 ICTs, Social Networks, and Communities

11.9 Funding and Publishing in Science

11.10 IT Software and Infrastructures

11.11 Collaboration and Interdisciplinarity

12 Saturday 10:15-12:15

12.1 Medical Anthropology and the Life Stakes of Knowledge

- 12.2 Examining the Structures of Participation in New Media and Information Technologies
- 12.3 Rhetorical Views of Knowledge-Making in Health and Medicine
- 12.4 The Changing Organization of Science and Its University Context
- 12.5 Climate Modeling and Uncertainty: Epistemology and the Construction of Climate Facts
- 12.6 Engineering Studies
- 12.7 Articulations of Value in Contemporary Technoscience
- 12.8 Knowing Stem Cells: Multiple Meanings in the Standardisation, Understanding, and Regulation of Stem Cell Materials
- 12.9 Network Ethnography
- 12.10 Ecologies of Hope
- 12.11 Technologies of Forgetting and Exclusion: Case Studies in the Social Benefits of Forgetting

13 Saturday 12:30-1:30

- 13.1 Circulations of Medical Knowledge
- 13.2 Author Meets Critics: Peter Taylor's *Unruly Complexity: Ecology, Interpretation, Engagement*
- 13.3 General and Philosophical Issues
- 13.4 Memory and Technology
- 13.5 Life, Death, and Dying
- 13.6 Engineering and Design
- 13.7 Contextual Lenses for Ways of Knowing
- 13.8 Science and Public Health
- 13.9 Indigenous Knowledge
- 13.10 Nuclear Energy
- 13.11 Finance and Economics

14 Saturday 1:45-3:15

- 14.1 Author Meets Critics: Charis Thompson
- 14.2 Gender and Race
- 14.3 War and Weapons:
- 14.4 Pharmaceuticals, Regulations, and Markets
- 14.5 Information and Publics
- 14.6 STS in Development and on Location: Data, Products, Practice
- 14.7 Health-Care, Knowledge, and Ethics
- 14.8 Legal and Criminal Justice Dimensions of Science and Technology
- 14.9 Health, Markets, and Governance
- 14.10 Science Technology Studies, Disability Studies and Deaf Studies
- 14.11 Styles of Science and Technology

15 Saturday 3:30-5:45

- 15.1 Governance of Science and Technology
- 15.2 Stem Cells
- 15.3 Climate Policy Initiatives and Science for Policy - climate policy
- 15.4 Consumers, Patients, and Health
- 15.5 Ways of Performing Finance (Working Session)
- 15.6 Computational Co-creation of Knowing Selves and Communities
- 15.7 Social Studies of Biology and Evolution
- 15.8 Magic, Religion, and Science
- 15.9 Communication, Publics, and Science
- 15.10 Sound, Visualization, and Senses
- 15.11 Techniques of Knowing in the Contemporary

- Linda Hogle (U Wisconsin) discussant

*1.2 STS and Information Studies I: Cyberinfrastructure/e-Science
(Riopelle)*

- Organizers: Jean-François Blanchette (UCLA) and Geoffrey
Bowker (Santa Clara U.)
- Chair: Ramesh Srinivasan (UCLA)
- Paul Wouters & Anne Beaulieu (Virtual Knowledge Studio)
Changing Practices, Telling Stories, Building Tools in e-
research
- David Ribes (U Mich.) Consequences of the Long-Term Today
- Geoffrey Bowker (Santa Clara U.) Cyberinfrastructure Studies -
Emerging Themes about E-mergent Knowledgescapes
- Marina Jirotko (Oxford U) The Practical Accomplishment of Data
Sharing
- Greg Downey (U Wisconsin) The library on the screen: Contested
infrastructures for knowing in the pre-Web era
- Les Gasser (UIUC) discussant

1.3 Ways of Knowing the Biomedical Body (Bellefleur)

- Organizer/chair: Ericka Johnson (Linköping U.) and Rachel
Prentice (Princeton)
- Elin Bommenel (Lund U.) From insecurity to security. The process
of creating an instrument

Ericka Johnson (Linköping U.) Mapping medical experience.
